

## **STUDENT ENROLLMENT PROCEDURE**

### **To Those Adults Seeking To Enroll a Student in the Granby Public Schools:**

Welcome to the Granby Public Schools! In order to enroll a student in our schools, you must complete a number of forms, which are enclosed and are described in this letter, and submit additional documents along with these forms.

The first form is the enrollment form which provides basic information about the student and the adult seeking to enroll the student in the Granby Public Schools. This is a necessary prerequisite to the verification of residency. Massachusetts law says that only those students who are actually living in the Town of Granby and who have an intention of remaining in the Town of Granby may attend school in the Town of Granby. The Granby School Committee has developed a policy on residency which requires the administration to develop a procedure for the verification of residency. This part of the enrollment process is to carry out that residency policy. Please be advised that if any questions arise as to whether or not the prospective student is residing in the Town of Granby and has an intention of remaining, or if questions arise after enrollment, an appropriate investigation will be conducted. Therefore, if the student is not living in the Town of Granby, please do not attempt to enroll him/her. Further, please be aware that M.G.L. c. 76, §5 allows the School Committee to obtain the full cost of any student's education from any adult who enrolled a student in the Granby Public Schools, knowing that the student was not a resident.

Other documents which you will be required to provide to the school district include, but are not limited to, the following:

1. Documents which establish residency (specified in the enclosed materials);
2. Certification of Student Residency (to be completed if the student is living in the home of someone other than his/her biological or adoptive parent(s), whether or not the biological or adoptive parent(s) is living there also);
3. A copy of the most recent custody decree or agreement, if applicable, and/or any temporary restraining orders. This information is necessary because some rights in Massachusetts are contingent upon whether you have physical or legal custody of the student, whether you are a guardian, etc.;
4. Immunization records and other pertinent health records;

5. The complete school record of the student, if s/he is transferring from another public school district, as required Massachusetts law (G.L. c. 71, §37L); and
6. If you are not the biological or adoptive parent, then you must submit a copy of the guardianship decree, if applicable, evidence from DSS naming you as foster parent, or if none of the foregoing applies, then you must submit the Transfer of Parental Educational Rights form, signed by the biological or adoptive parent(s) or the guardian of the student. This information is necessary because some rights in Massachusetts are contingent upon whether you have physical or legal custody of the student, whether you are a guardian, etc.
