SUPPORT SERVICES

The Child Study Process

A child in a classroom may need additional support for a variety of reasons. If the classroom teacher feels that s/he has observed, assessed and made appropriate modifications for a child but a further plan seems necessary, s/he may request a Child Study conference to help determine the next step. At this meeting, appropriate staff members will discuss the child's educational history and current learning strengths and weaknesses and strategies about other instructional approaches or supports to meet the student's needs.

Special Education Referrals

A student may be referred to Special Education by a social worker, principal, other school staff members, or by his/her parents. When a referral is made, an Evaluation Team is established; the team consists of a team chairperson, school psychologist, special education teacher, speech and language pathologist, classroom teacher(s), parents, and in some cases the principal. All participants will hear the results of a standardized battery of tests and discuss their own observations and impressions of the student's strengths and weaknesses. If she/he is found to have a disability and be eligible for special education services, then these team members participate in formulating an individualized educational plan (IEP).

Title I

The Title I program provides supplemental support for reading and math at West Street School.

504 Accommodation Plan

A student who has been referred for a special education evaluation may be found to have a disability but does not meet the eligibility requirements to receive special education services. If the team determines that the student needs an accommodation to assist him/her to receive the full benefit of the educational program, a 504 accommodation plan will be written. This plan outlines the accommodations the student needs and is signed by the parents. A 504 accommodation becomes part of the student's permanent record.

The Granby Public Schools does not discriminate in employment or in the delivery of educational services on the basis of race, color, national origin, gender, age, sexual orientation, disability, marital status, veteran's status, or homelessness.
